- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

Press to open the Disc Door.

CONTROL PORTS

Use these ports to connect the Sega Dreamcast™ Controller or other peripheral equipment. From left to right are Control Port A, Control Port B, Control Port C, and Control Port D. For **HEAVY METAL® GEOMATRIX**, use Control Ports A and B to connect controllers for players 1 and 2 respectively.

HEAVY METAL® GEOMATRIX is a 1-to-2 player game. Before turning the Sega Dreamcast power ON, connect the Sega Dreamcast Controller(s) or other peripheral equipment into the control ports.

SEGA DREAMCAST VISUAL MEMORY UNIT (VMU)

To save option settings and high score data, insert a Visual Memory Unit (VMU) into Expansion Slot 1 of the controller in Control Port A or B BEFORE turning on the Sega Dreamcast.

Note: While saving game data, never turn OFF the Sega Dreamcast power, remove the memory card or disconnect the controller.

STARTING A GAME

NOTE: When you turn ON the Sega Dreamcast power, if you see a screen indicating that "A Memory Card cannot be found," turn OFF the Sega Dreamcast power, insert a memory card with 4 free blocks, and then turn the power ON again. If you do not have a memory card, the software will allow you to play without saving game data. Press the Start Button to continue.

Press the Start Button at the Title screen to display the Game Mode Select screen. Select a game mode to begin play. (See game mode descriptions below and beginning on page 16.) To make your selections, use the Directional Button, Analog Thumb Pad or Joystick to highlight choices and press the A Button to confirm.

ARCADE — 1 or 2 players can play this original arcade version. A second player can join in a game already underway. Tag play is available. (See pages 15 and 16-17.)

CHAOSMATRIX — 1 player only. Find the key item in the maze and race to the goal. The faster your time, the higher your score. (See page 20.)

VERSUS — 2 player competition. You must have 2 controllers connected to choose this mode.

OPTION — Adjust various settings. (See page 23.)

SAVING/LOADING GAME DATA

HEAVY METAL® GEOMATRIX automatically saves your game data to an optional Visual Memory Unit (VMU) inserted into Expansion Slot 1 of the controller. You can resume play on a saved game from the Game Mode Select screen.

- This game requires an optional memory card with 4 free blocks in order to save game data.
- Do not remove the memory card during gameplay. Doing so may destroy game data.

SEGA DREAMCAST CONTROLLER

CONTROLLERS

Never touch the Analog Thumb Pad or Left/Right Triggers while turning the Sega Dreamcast power ON. Doing so may disrupt the controller initialization procedure and result in malfunction. If the Analog Thumb Pad or Left/Right Triggers are accidentally moved while turning the Sega Dreamcast power ON, immediately turn the power OFF and then ON again, making sure not to touch the controller.

SEGA DREAMCAST ARCADE STICK

SEGA DREAMCAST JUMP PACK™

HEAVY METAL® GEOMATRIX supports the Jump Pack vibration peripheral. When inserted into the Expansion Slot of a Sega Dreamcast controller or compatible peripheral equipment, the Jump Pack provides a vibration effect that can considerably enhance the gameplay experience. (The Jump Pack cannot be used with the Arcade Stick.)

NOTE: When inserted into Expansion Slot 1 of the Sega Dreamcast controller, the Jump Pack connects, but does not lock. If the controller is jarred, the Jump Pack may fall out during game play or otherwise inhibit game operation. The Jump Pack cannot be used with the Arcade Stick.

- HEAVY METAL® GEOMATRIX is a 1-to-2 player game. Connect controllers or other peripheral equipment before turning on the Sega Dreamcast.
- When using any controller, to return to the Title screen at any point during gameplay, simultaneously press and hold the A, B, X, Y

and Start Buttons. This will cause the Sega Dreamcast to soft-reset the software and display the Title screen.

- For both the controller and Arcade Stick, you can change the default button assignments in OPTION mode. See page 23.

LOG ON TO LIVE!

At the end of the 21st century, the development of Nanobot technology allowed people to live in cyberspace with the same ease as living in the real world. Exhilarated by the freedom of cyberspace, people soon became oblivious to incidents in the real world.

Suddenly, a catastrophic event shook the inhabitants of Earth wide awake. Huge meteorites pummeled the Earth, melting the ice in Antarctica and causing global waters to rise to flood levels.

Most of Earth's continents were submerged. Numerous lives were lost as people made a frantic scramble for higher ground.

Within a short time, what little land remained was subject to militant control by a powerful government. People were herded into cramped underground cells or onto high mountain peaks where the air was almost too thin to breathe.

While most people continued logging into cyberspace as an escape, some innovative thinkers were developing new possibilities.

They experimented with using Nanobot processes to reverse-trace their bodies into the land. It soon became possible to sneak into tightly guarded land from cyberspace.

Now, intense conflicts are breaking out as hordes of homesteaders compete to grab up real land through cyberspace.

Protectors and plunderers are locked in bloody battles. Earth is no longer a place of peace — an era of power wars has begun!

Dominance in cyberspace is essential to living in the real world now!

HEAVY METAL TEAMS

The 818 STOMPERS will stop at nothing to further their goals. They hate being restricted by anyone for any reason.

Proud descendants of legendary knights, the 707 METALHEADS have preserved their ancestors' land for ages. In the recent chaos they lost their traditional holdings. They are fighting to recover these ancient lands.

323 AGENTS will do anything for pay. With civilization in chaos, the weak have no choice but to hire such organizations to protect their land. To the 323 AGENTS, battle in cyberspace is just a job. However, failure is never allowed.

The 911 ELITE is a special combat force dedicated to protecting citizens' lives in cyberspace.
